CIDQ MEMBER BOARDS

Connection to the regulatory bodies of interior design, like our Member Boards, is key to the success of CIDQ. Our 26 Member Boards across the US and Canada allows us to stay in touch with the grassroots, legislative efforts that so deeply affect the recognition of interior design.

This collaboration also enforces the pathway to professionalism within the field of interior design. By permitting CIDQ to be the gatekeepers of competency, our local regulatory bodies RE then free to focus on the regulation of interior designers and the right to practice.

*Thank you to our member boards and all they do to support interior design.*
